Sculptural Illumination
– Cloud & Aura

WHAT IS THE FORM SERIES?

- The Form Series focuses on shape and presence – fixtures built around a clean, sculptural form rather than a flat, edge-to-edge panel. It's the EOS line to reach for when the fixture itself, not just the light it casts, needs to be part of the design.
- The Form Series is available in two constructions – Cloud and Aura – so you can choose between a rounded, ceiling-mounted fixture or a wall-mounted, edge-glowing form.

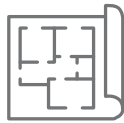

CLOUD vs. AURA - Main Differences

	FORM SERIES CLOUD	FORM SERIES AURA
Format	Rounded ceiling fixture, complete with diffuser and frame	Wall-mounted form with a glowing acrylic edge
Lighting Method	Single-sided direct illumination	Edge-lit acrylic surface
Typical Mounting	Surface mount, or suspended with rigid poles / aircraft cable	Wall-mounted with pre-installed French Cleats
Max Size	48" x 120" (custom sizes available)	48" diameter (custom sizes available)
Special Note	–	Non-ferrous construction – safe for MRI suites
Warranty	3 years	3 years

APPLICATIONS

HOSPITALITY

COMMERCIAL INTERIOR

RESTAURANT

BARS

RESIDENTIAL

RETAIL

HEALTHCARE

COLOR TEMPERATURES

Both Cloud and Aura support the full EOS color range, so each fixture can be tuned to the mood of the space:

- 1800K
- 2400K
- 2700K
- 3000K
- 3500K
- 4000K
- 5000K
- 6000K
- 6500K
- 7500K
- Tunable White (18w per sq/ft)
- RGB
- RGBW
- RGBA
- UV (Ultraviolet)

COMPATIBLE POWER SUPPLIES

0-10V dimming | DMX/DALI
Electronic low voltage (ELV)
Universal
5-1 Driver

APPROVALS AND CERTIFICATIONS

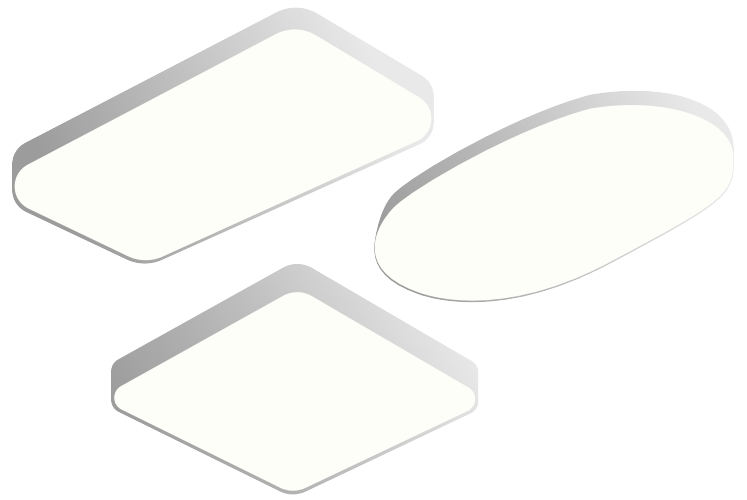

The System is UL listed for Architectural applications and UL recognized for signage. All power supplies are UL / ETL listed.

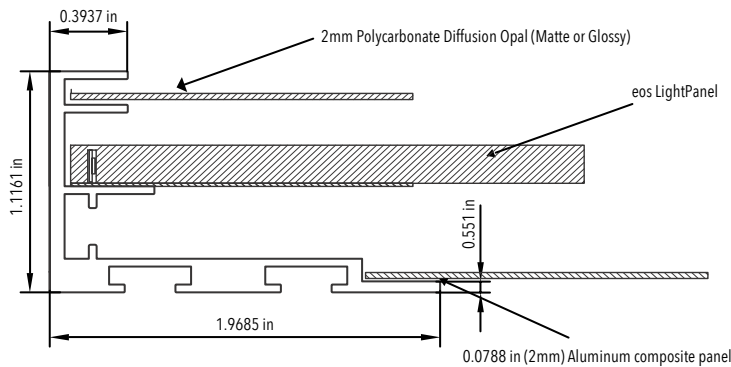

FORM SERIES CLOUD

The Form Series Cloud is a rounded ceiling fixture with a clean, modern aesthetic, built for interior applications. Its soft, curved form delivers smooth, uniform illumination with a refined visual presence, and it comes as a complete fixture – diffuser and frame included. It can be surface mounted or suspended using rigid poles or aircraft cables, making it easy to integrate into hospitality, retail, and commercial interiors. Custom sizes are available up to 48" x 120".

SECTION DETAIL

KEY BENEFITS

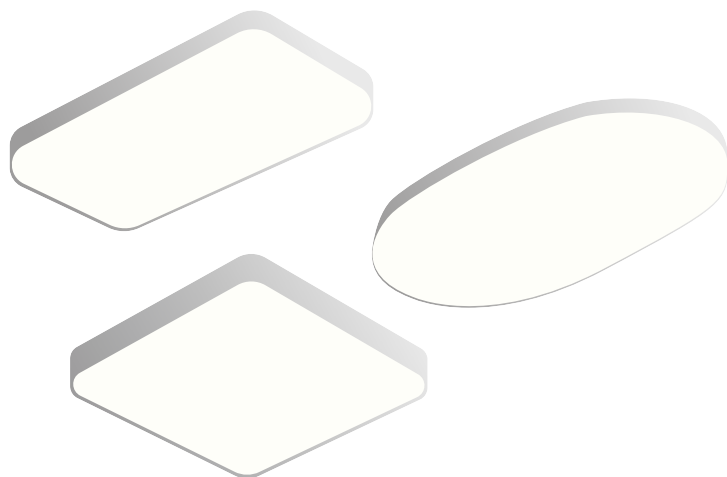

- Single-sided illumination with a smooth, curved form
- Custom sizing up to 48" x 120"
- Indoor rated, IP20
- Easy installation with keyhole hooks (wall) or aircraft suspension cables (ceiling)

Wattage	4.3 W/sq.ft standard power (5 W/sq.ft high power)
Thickness	1 1/8"
LEDs	ANSI-binned, Tier 1 suppliers; CRI > 80 standard (95+ premium option)
Driver Input Voltage	100V to 480V
Standard Output Voltage	24VDC standard and 24VDC high power (12VDC available on request)
Dimming	Dimmable to <10% with compatible dimmable power supplies
Lifetime	50,000+ hours (~12 years at 12 hrs/day)
Max Dimensions	48" x 120"
Wire Gauge	22GA (color), 20GA (static white), 18GA (color tunable)
IP Rating	IP20, indoor rated
Warranty	3 years, per EOS warranty policy

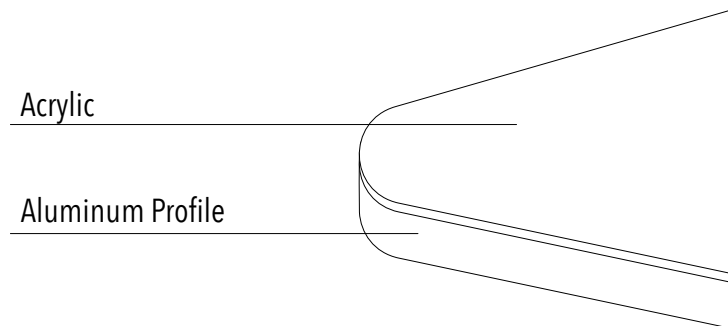

FORM SERIES AURA

The Form Series Aura uses EOS LightPanel technology to deliver uniform, edge-to-edge illumination with a smooth, even glow – but in a sculptural, primarily wall-mounted format. It features a clean acrylic surface with a refined luminous edge and a seamlessly hidden aluminum profile. Select ceiling applications are also available, along with custom sizes up to 48" in diameter. Its non-ferrous construction makes it safe for use in MRI suites, with the power supply installed remotely up to 30 feet away.

SECTION DETAIL

KEY BENEFITS

- Uniform, edge-to-edge glow from a clean acrylic surface
- Recommended for wall installation; select ceiling applications available
- Up to 48" diameter, with custom sizing available
- Indoor rated, with optional outdoor rating
- Low power consumption and easy installation

Wattage	4.3 W/sq.ft standard power (5 W/sq.ft high power)
Thickness	7/8"
Minimum Size	3" x 3"
Maximum Size	48" x 120" (up to 48" diameter for round forms)
LEDs	ANSI-binned, Tier 1 suppliers; CRI > 80 standard (95+ premium option)
Driver Input Voltage	100V to 480V
Standard Output Voltage	24VDC standard and 24VDC high power (12VDC available on request)
Dimming	Dimmable to <10% with compatible dimmable power supplies
Lifetime	50,000+ hours (~12 years at 12 hrs/day)
Wire Gauge	20GA (white and color-tunable), 24GA (color)
IP Rating	IP20, indoor rated
MRI Safety	Non-ferrous materials – safe for MRI suites; power supply installed remotely, up to 30 ft away
Warranty	3 years, per EOS warranty policy

USAGE EXAMPLES

Rounded Ceiling Features

Soft, rounded-rectangle ceiling panels used as a refined alternative to hard-edged fixtures – ideal for lobbies, corridors, and reception areas that call for a gentler, more architectural look.

Circular Accent Fixtures

A clean circular format for spaces that want a softer focal point – reception desks, elevator lobbies, or feature walls where a round glowing element anchors the design.

Wellness & Healthcare Displays

The Aura's non-ferrous, MRI-safe construction makes it a natural fit for healthcare and wellness environments, where a soft, evenly lit rounded panel adds calm without adding visual noise.

Millwork Integration

Built directly into custom cabinetry, reception desks, or feature millwork, the Form Series adds a glowing rounded accent without interrupting clean architectural lines.

Statement Entryways

A large rounded panel used as a centerpiece at the entrance to a hotel, restaurant, or retail flagship – a soft, glowing first impression instead of a hard-edged fixture.
